Professional Summary

Frontend Engineer with 2.7 years of experience building scalable web applications using **React.js, TypeScript, Redux Toolkit, JavaScript (ES6+), and Node.js**. Skilled in **performance optimization** (lazy loading, code splitting, memoization) and **automated testing (Vitest, Jest, React Testing Library)**. Experienced with **AWS cloud services**, REST APIs, and CI/CD pipelines. Proven ability to deliver **faster load times, improved UX, and reduced manual effort** through reusable components and automation.

Technical Skills

Frontend Development: React.js, Next.js, Redux Toolkit, Context API, JavaScript (ES6+), HTML5, CSS3

Backend Development: Node.js, Express.js, JWT, REST APIs

UI Libraries & Frameworks: Material-UI, Tailwind CSS, Bootstrap

Database Technologies: PostgreSQL, MySQL, MongoDB, Mongoose

Cloud Platforms: Amazon Web Services (AWS), EC2, S3, CloudFront, Route 53, Lambda

Testing Frameworks: Vitest, Jest, React Testing Library, Postman

Methodologies: Agile Development, Scrum, Code Reviews, Software Development Life Cycle

AI Tools: ChatGPT, Claude AI, Cursor AI, GitHub Copilot

Other Tools/Skills: API Integration, Responsive Design, system design, Accessibility, Figma, Firebase, RingCentral, Twilio, Zoom, SMART on FHIR, JIRA

Professional Experience

Frontend Engineer

XL Dynamics India Pvt. Ltd.

Aug 2025 – Dec 2025

Remote, India

Project: Event & Dynamic Landing Pages Platform

- Built responsive, high-performance event and marketing landing pages using **React.js**, increasing user engagement and average session duration by **15–20%**.
- Designed and implemented **JSON-driven dynamic page architecture** with content hosted on **AWS S3**, reducing content update turnaround time by **50%**.
- Optimized performance by improving **Core Web Vitals and PageSpeed scores** by **18–22%**.
- Applied **SEO best practices**, improving search visibility by **10–15%**.
- Developed reusable UI components, reducing development effort by **35%**.
- Leveraged **GitHub Copilot and ChatGPT** to improve development speed and debugging efficiency.

Software Engineer

Thinkitive Technologies Pvt. Ltd.

May 2023 – Aug 2025

Pune, Maharashtra

Project: EonMeds — Multi-Tenant Healthcare Platform

- Developed end-to-end healthcare modules for **user onboarding, doctor availability, appointment scheduling, subscriptions, billing, and payments**, improving workflow efficiency by **30–35%**.
- Built scalable and responsive web applications using **React.js, TypeScript, Redux, TanStack Query, Bootstrap, and MUI**, reducing page load time by **20–25%**.
- Collaborated with **Node.js** backend services to integrate secure **RESTful APIs** into React applications, improving application responsiveness by **18–22%**.
- Integrated **Heyflow** and **Square** for patient pre-qualification and secure payments, increasing successful transaction completion by **25%**.

Project: Akos MD — Telemedicine & EHR Integration Platform

- Developed responsive and user-friendly telemedicine interfaces using **React.js, TypeScript, and Material-UI**, improving overall user experience and accessibility.
- Built dynamic patient and provider workflows with reusable frontend components, reducing development effort by **30–35%**.
- Integrated frontend applications with healthcare APIs and **SMART on FHIR**-based systems, enabling seamless clinical data visualization and interoperability.

Education

Bachelor of Computer Science

Khandesh College Education Society's Moolji Jaitha College, Jalgaon

May 2022

CGPA: 8.4
